**PI-BR-3006**

A double edge safety razor is a type of razor that uses double-sided blades to provide a close and precise shave. This type of razor is designed with safety in mind, as the blades are enclosed in a guard to prevent cuts and nicks on the skin. The double edge design also allows for longer use of the blade, as both sides can be used before needing to be replaced.

A double edge safety razor is a type of razor that uses double-sided blades to provide a close and precise shave. This type of razor is designed with safety in mind, as the blades are enclosed in a guard to prevent cuts and nicks on the skin. The double edge design also allows for longer use of the blade, as both sides can be used before needing to be replaced.

Professional quality straight razors make excellent gifts for fathers, brothers, nephews, or any entry-level groomer! Made from durable steel, our straight razor is designed for long-lasting use, with no rust! Complete with stylish matte black powder finish. Each straight razor measures approximately 8.5 inches long for a superior grip and precision grooming! Our straight razors have a rounded safety edge and lock-tight blade holder for secure blade insertion! When the blade dulls, simply insert a replacement for a fresh shave! Fits most blades (not included).

Straight shaving razors, also known as cut-throat razors or straight razors, are a type of razor with a single, straight blade attached to a handle. This type of razor is known for its traditional feel and precise shave, making it an ideal choice for those who desire a classic shaving experience. The blade of a straight razor is honed to a sharp edge, allowing for a close and precise shave. The handle is typically made of materials like wood, ivory, or stainless steel and may have a weighty feel to it, providing stability and control while shaving.
